

FUNGICIDE

PENDANT SC

FUNGICIDE

Pendant SC is powered by the naturally-occurring active ingredient, fludioxonil. This product delivers reliable, broad-spectrum control of several key turf diseases including snow mold, anthracnose, and bentgrass deadspot.

Advantages of using PENDANT SC

- Provides complete coverage from the leaf down to the soil surface.
- Triggers fungal spores to rapidly absorb water until they burst.
- Derived from a naturally-occurring anti-fungal compound of soil bacteria.
- Broad-spectrum control of several key turf diseases.

Use sites

Golf courses, institutional, commercial and residential lawns, sod farms, sports fields, parks, municipal grounds and cemeteries

Effective Against

Brown patch, Brown Ring Patch, Anthracnose, Leaf Spot, Summer Patch, Yellow Patch, Snow Mold (Pink and Gray), Microdochium patch, Gray Leaf Spot

Active Ingredients

- 11.8% Fludioxonil

Packaging

- 2 x 1 Gallon
